SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Box Patent Application
Assistant Commissioner of Patents
Washington, D.C. 20231

Dear Sir:

In accordance with the duty of disclosure under 37 C.F.R. §1.56 and pursuant to 37 C.F.R. §§1.97-1.98, Applicant hereby notifies the U.S. Patent and Trademark Office of the following information.

Around February 2002, Robert G. Ferrell (e-mail address rferrell@Texas.net) posted the following message on a WebAgain User Group:

"Gee, I wrote a Perl script called MIVP (Mirror Integrity Validation Program) in 1996 that did exactly this. It compared several attributes of each file in the user-configured list to those on a remote server or read-only media and if it found any differences, restored the modified file and notified the proper people.

It also had a range of logging and other security-related functions that could be configured by the user. I offered it (for free) to the Air Force after their Web site got defaced (New Years 1997, if my memory serves), but they turned it down. I know at least one other person who wrote a similar program in 1997.

Everything old is new again.

RGF"

The submission of the present information is not intended as an admission that any such information constitutes prior art against the claims in the present invention. Applicant reserves the right to dispute any of the present information as prior art during examination. Further, Applicant does not

waive any right to take any action that would be appropriate to antedate or otherwise remove any information as a competent reference against the claims of the present application. Furthermore, the submission of this Supplemental Information Disclosure Statement is not to be construed as a representation that a search has been made or that no other material information may exist. This Supplemental Information Disclosure Statement is believed to be filed prior to the mailing of a first Office Action, and therefore no certification under 37 C.F.R. §1.97(e) or fee under 37 C.F.R. §1.17(p) is required.

If there are any questions concerning this IDS, the Examiner is requested to contact the undersigned. If it is determined that this IDS has been filed under the wrong rule, the United States Patent and Trademark Office is requested to consider this IDS under the proper rule (with a petition if necessary) and charge the appropriate fee to Deposit Account No. 19-2814.

Respectfully submitted,
